

COVID-19 SCREENING TOOL

Use this screening tool to evaluate for COVID-19 symptoms and exposure risk.

SYMPTOM AND EXPOSURE SCREENING QUESTIONS

COVID-19 Symptoms	Household Exposure	Community Related Exposure
<p>1. Have you recently developed any of these symptoms?</p> <ul style="list-style-type: none"> ▪ A cough? ▪ Difficulty breathing or shortness of breath? ▪ An elevated temperature, a fever (100.0° F or higher), or feeling feverish? ▪ New onset of ANY of the following: chills, sore throat, sudden loss of taste or smell, congestion, headache, muscle pain/body aches, unusual tiredness, nausea, vomiting, or diarrhea? 	<p>2. In the past 10 days, Have you or anyone in your immediate household been exposed to, are being tested for, quarantined, or confirmed to have COVID-19?</p>	<p>3. In the past 10 days, Have you had unprotected close contact* with a person confirmed with COVID-19 or with a person with a respiratory illness suspected to have COVID-19?</p>

If **ANY** of these are answered "Yes"

Ask: What is the date the symptoms started and/or date of exposure?

<p>ACTION TO TAKE: CLIENTS Contact your manager. Contact client's physician. Recommend quarantine/home isolation resulting from the direction of your manager and the provider.</p>	<p>ACTION TO TAKE: EMPLOYEES Report symptoms/exposure/travel concerns to your manager. Contact your health care provider. Follow quarantine/home isolation requirements and the return to work plan as directed by your manager.</p>
--	--

*Unprotected close contact: prolonged close contact within 6 feet of distance for a cumulative time period of 15 or more minutes during a 24-hour period to a person where the nose and mouth were exposed to potentially infectious material. Employees should notify their manager if they are working a second job as a health care worker (e.g. long-term care facilities, transitional care units, COVID-19 units, or hospitals).

*It is highly recommended every client wears a face mask during direct care if they develop respiratory symptoms or experience an exposure to COVID-19 within the past 10 days. If the client does not have one, please offer and request the client wear a surgical/procedural mask.
